Women and girls of three communities in Ward 30 of the Aoke, Langalanga Constituency have been up-lifted with owning a pair of BRA for a long time during the New Year period, 2012. I took three cartons/boxes of bras with me and tried to find if this will excite the women in the villages if they receive the bras for free.

I was really surprised to see how women and girls became excited when they started sharing the bras. Due to the need and the demand for such an up-lift, the women thanked me and have requested me to extend their gratitude to the committee and to the coordinator of the Up-Lift program.

Whilst distributing the bras, some of the women raised other issues such as having to extend this good Samaritan deed to other household needs such as, towels and blankets. Below is a summary of the Bras distributed and a new list of new requests, plus other household item needs.

### Summary
